

Short Ljusnan Trip

Self Service

The short Ljusnan Trip starts at Flon and ends at the wind shelter after around 45 min of paddling. The endpoint is marked with a Topsport flag.

If you're driving, park your car at the spot marked **P** on the map. The driver can drop off all passengers in the parking slot at the start, continue to the parking lot and then walk the 1,5 km up to the start.

Canoes and paddles are collected by the Topsport flag. Life jackets are collected from the self service locker at the start. After the paddle, follow the walking path to the road. From here, follow the road to return to the parking lot. Distance from the wind shelter to the parking lot is around 700 m.

-- Means walking path. Please close the gates in the electric fence behind you 😊

Have a nice trip!
